

GENERAL STORE & RESTAURANTS SUNDANCE, UTAH

Concept Sketch

Foundry Grill & Tree Room Patio

VILLAGE CENTER BUILDINGS

Commercial and dining facilities at the Sundance Base Village, comprised of renovations and new construction, make the heart of the tiny resort setting. The building grouping is low and informal, taking cues from each contingency of the environment - water, trees, view, and sun - so that the natural surroundings feel dominant over the man-made. Distinctions between interior and exterior are blurred, with rambling porches, boardwalks, and patios.
