Street Rendering 2

TOWN CENTER REVITALIZATION

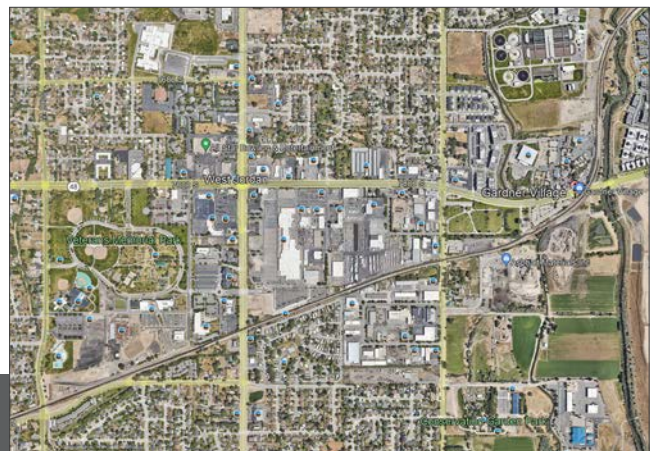

Urban design study team sponsored by the American Institute of Architects prepared a vision plan for the heart of an older town, in Salt Lake County, that had developed from 20th C. sprawl patterns. Traditional urban building types, smaller block size, streetscapes, and public spaces integrated to current street armature.

PROGRAM

AIA/RUDAT Study

- Central district of town with obsolete retail, car dominant streets
- Municipal, business, walkable retail, density housing (all prices)
- Study for Envision Utah regional growth plan
