MOUNTAIN HOTEL - SCHEMATICS 1994

Lodging units within the Mid-Mountain setting, for a magnificent location along the ridge of a bowl, are to be the only hotel at the resort (as opposed to condominiums). These accommodations shall be almost invisible from all surrounding vantage points. A central building houses the 20 suites and restaurant. 16 freestanding bungalows (1 bedroom casitas) are arranged along the arc of the ridge, settled into the ground with roofs of metal or sod, and providing as much exterior living space as interior.
