

House Type A

Site Plan

House Type A

Main & Upper Level Floor Plans

**COMPLETED 2003**

Five small lot single family dwellings were developed as basic plan types for a neighborhood within a rural setting. The cottages are vertical in proportion and simple in shape, with lots as small as 2,800 s.f., and will be understood as an ensemble of buildings along a street rather than as expressive, individual residences.

With budget restrictions on the full use of good rural building materials, the houses aim at an aesthetic of modest country cottages.

**PROGRAM**

*Triple D Development, L.C.*

- Site along local highway (as part of Resort Community)
- Schematic Design for 62 Dwelling Units
- Detached Cottages on very small lots (37)
- Attached Townhouses (25)
